

MAKE A COTTON-TOP TAMARIN SOCK PUPPET!

Here's what you'll need:

One sock, a piece of white paper, brown paint or marker, glue, and a pair of scissors.

First, draw your cotton-top's eyes, hair, mouth, and tail on your piece of paper. Color the tail brown, and cut out all of the pieces out with a scissors.

Now, slip the sock over your hand, and use your other hand to glue the eyes, mouth, hair, and tail to your sock puppet.

Wait a few minutes to let the glue dry all of the pieces to your sock puppet.

Now you can use your brown paint or marker to color the rest of the sock that will become the cotton-top's body.
